

Another Successful Graduation Ceremony!

The **17th** annual Apple Youchien Graduation Ceremony was held on June 17th, 2022, at the San Diego Point Field to celebrate the departure of 23 children from our classes. Since the opening of Apple in 2005, we have now celebrated **216** children's departure.

The children's straight eyes, their confident appearance as they received their certificates, and their energetic singing voices at the school recital were all filled with a sense of energy that was almost overwhelming. I was filled with a sense of pride as well as little sadness as I watched the children who had entered the school through the apple arch walk proudly down the aisle with their graduation certificates in their hands, and then leave the school through the same archway.

We are truly honored that we were able to watch over the children's growth and share in their joy together with their families in the 2021 school year.

Even after graduation, we will forever be one big Apple Family.♡

I pray that each one of the children will continue to move forward in their own way, while never forgetting the spirit of love at Apple. May everyone's future shine bright and big!
